

IDEC Launches Fully Redesigned Website

Corporate and Product Sites Separated and Revamped for Improved Usability

IDEC Corporation (Head Office: Yodogawa-ku, Osaka City / CEO: Toshiyuki Funaki) is pleased to announce the full renewal of its website, which was officially launched on February 2, 2026.

Until now, both corporate information and product/service information had been provided within a single website. However, due to differences in the nature of the information and the purposes of visitors, it had become increasingly difficult to ensure optimal visibility and effective organization of content. With this renewal, IDEC has rebuilt its Corporate Site and Product Site as independent information platforms, enabling various stakeholders to more easily access the information they need according to their objectives.

Through this website renewal, IDEC will continue to enhance both the quality and quantity of the information it provides and strive to deliver greater value as a company committed to addressing social issues through its business activities business activities.

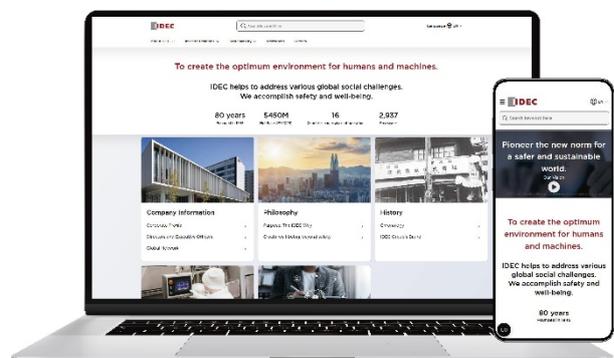

Key Points of the Renewal

- **The Corporate Site and The Product Site have been completely separated**, making each site easier for visitors to access information aligned with their respective needs.
- **Content has been organized to enable users to intuitively reach the information they need**, with overall usability improved through clearer and more effective navigation pathways.
- **The website design has been revamped** with a more refined visual structure, and the layout has been optimized for mobile devices such as smartphones and tablets, **ensuring a comfortable and user-friendly browsing experience across all devices**.
- **A globally unified design and system have been adopted**, providing a consistent user experience regardless of where the website is accessed worldwide.

【The Corporate Site】

The Corporate Site consolidates and publishes company information, shareholder and investor information, sustainability content, news releases, recruitment information, and other related content.

We will continue to promptly and clearly organize accurate and reliable information and provide it to a wide range of stakeholders, including investors, business partners, job seekers, the media, and local communities.

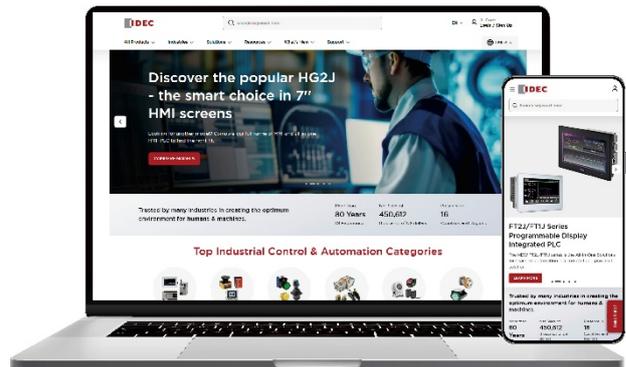

【The Product Site】

The Product Site focuses on product and technology information and offers localized websites tailored to each region.

A globally unified new design has been adopted, and information has been systematically organized to deliver a user interface that enables intuitive access to a wide range of information.
